Retraction Note: BMC Cancer 21, 1310 (2021)
<https://doi.org/10.1186/s12885-021-08923-0>

The Editor has retracted this article at the corresponding author's request. After publication, the authors became aware that their MHCC-97H and HCCLM3 cell lines were contaminated with HepG2, which affected the results of the FAM83H-AS1 overexpression experiment. The authors therefore no longer have confidence in the conclusions of this article.

All authors agree to this retraction.
