Erratum to: In vitro and in vivo activity of miR-92a–Locked Nucleic Acid (LNA)–Inhibitor against endometrial cancer

Anna Torres^{1*}, Joanna Kozak¹, Agnieszka Korolczuk², Paulina Wdowiak¹, Ewa Domańska-Glonek¹, Ryszard Maciejewski³ and Kamil Torres³

Erratum

After the publication of the article [1], the authors realised it contained an error with the Methods section. The following paragraph should be deleted from the original article:

Cell proliferation assay

Proliferation was measured using Delfia cell proliferation kit (Perkin-Elmer, Waltham, MA, USA) according to manufacturer protocol. BrdU incorporation was measured by time–resolved fluorescence 48 h after transfection using VictorX4 multimode plate reader (Perkin-Elmer, Waltham, MA, USA). All experiments were performed in triplicates and repeated three times.

Please note that the original article was corrected.

Author details
